Why Design Thinking is Important?

- Help you/team surface unmet needs of the people you are creating for
- Reduces the risk associated with launching new ideas
- Generates solutions that are revolutionary, not just incremental

3 Key Principles:

- *Empathy*
- *Ideation*
- *Experimentation*

CIE Level 1 - Getting Started with Entrepreneurship

Design Thinking and Startups

- Design Thinking: mindset to create products/services that make a difference to customers
- Have your customer's love your product offering
- Better business outcomes

Can also be applied in wide-variety of other areas:

- Business design, Leadership, Organizational change, etc

CIE Level 1 - Getting Started with Entrepreneurship

CIE Level 1 - Getting Started with Entrepreneurship

IDEO Case Study

- IDEO did this for ABC News to illustrate their process for coming up with innovative new products : [IDEO shopping cart project](#) (video, 15 mins)

Carefully watch to see

1. the process (and steps) IDEO employs for new/innovative products
2. how they brainstorm effectively and jot down your observations

CIE Level 1 - Getting Started with Entrepreneurship

IDEA Case Study

1. What do you think enabled IDEO team to ideate/conceive/develop the entire product in 4 days?
2. Do you need domain experts (in this case related to shopping cards) on your team to create innovative products?
3. What did you find interesting about IDEO's brainstorming
