

Department of Computer Science and Engineering

Problem Solving With C - UE25CS151B

Feb-June, 2025-26

Evaluation Policy – Theory

Theory	ISA			
	ISA 1	ISA 2	Assignment	Total
	40 reduced to 20	40 reduced to 20	10	50
	ESA			
	100 marks reduced to 50			50
Total Theory Marks				100

- ISA: Blend Mode- CBT+ Pen & Paper(as per the Institutional Policy)
- ESA: Blend Mode- CBT+ Pen & Paper (as per the Institutional Policy)

Theory	Assignment – Experiential Learning (On Hackerrank platform)			
	Banana	Orange	Jackfruit	Total
	Level-1 (3 Marks)	Level – 2:(3 marks)	Level – 3 (4 marks)	10
	Upon completion of Unit I	Upon completion of Units II and III,	Upon completion of Unit IV	
	The main focus of this will be on basic programming concepts	These assignments involve arrays, conditional logic, iterative constructs, and structured problem-solving.	These require optimized logic, algorithmic thinking, and handling of edge cases , similar to placement-oriented coding problems.	
	Portions:Unit_1	Portions:Unit 2 & 3	Portions:Unit_4	
	Purpose: To ensure that students understand fundamental syntax and basic problem-solving techniques.	Purpose: To strengthen analytical thinking and enable students to apply multiple concepts together.	Purpose: To prepare students for competitive coding like and technical interviews.
