Activity 4 (Team) - Initial Problem Hypotheses (see example in next slide)

When [CORE TASK],

we believe that [TARGET CUSTOMER SEGMENT(S), DEFINED BY DEMOGRAPHIC AND/OR BEHAVIORAL ATTRIBUTES]

Activity 4 (Team) - Initial Problem Hypotheses - Example

When [CORE TASK], *using their shiny new smart phones*

we believe that [TARGET CUSTOMER SEGMENT(S), DEFINED BY DEMOGRAPHIC AND/OR BEHAVIORAL ATTRIBUTES] *buyers who have electric supply for less than two hours everyday*

who want [KEY FUNCTIONAL PERFORMANCE AND/OR PSYCHOLOGICAL NEEDS] *to charge their phones*

are dissatisfied by [EXISTING SOLUTIONS] *competing for the few plug points at home, to charge their phones within those two hours, not able to use their smart phones for researching for resources for education, looking for jobs or entertainment*

because of [SHORTCOMINGS OF EXISTING SOLUTION(S)] *the short time frame in which power is available*

and/or because of [CONSTRAINTS CONFRONTING CUSTOMERS]. *And end up not able to use the phones when they need to – making it feel like a wasted investment*
