Designing an Effective BMC

- Is every Building Block in your Canvas *connected* to one-another?
Ensure you don't have 'orphan' blocks. E.g. a revenue stream always needs to come from a related customer segment for a related value prop. To a given revenue stream, do you have appropriate key resources, key activities, cost and key partners (if any) identified?
- Is every Building Block in your Canvas *precise/clear* enough?
Ensure your descriptions are self-explanatory and unambiguous
- Make smart use of both images and words to convey your message
- Good use of color-coding
use different colors of Post-it notes for different Customer Segments, related Value Prop, etc
- Distinguish between “knowns/facts” and “unknowns/assumptions”
Good to know which of the blocks/statements are validated and which ones are still in the unknown/assumptions stage (yet to be validated)

Come back to these tips whenever you edit your BMC in the following sessions.
